After fourteen runs had been made off him he was taken out in the sixth inlature in Ireland. Giants down to four runs. Rusie pitched for the home team and only three hits were made off his delivery, of which O'Rourke made two. Then Donahue, a protege of Roger Connor's, went in the box to show his pace.

The only noteworthy incident of the gam was O'Bourke's giving Umpire McLaughlin a few points on the rules. When Farrell went to bat Ward's attention was called to the fact that he was not batting in the order on the score card. He notified the umpire and said that Farrell should be declared out for batting out of his turn. The ampire sustained him and Farrell was declared out. Then Capt. O'Rourke, who is ordinarily a most reasonable man, was exceedingly wroth, and procuring the book of rules showed the ampire that he was wrong. He had not called for the official order of batting and compared it with the score card order, as required. It was unreasonable to make Washington suffer for mistakes in the New York score card. So the umpire thought, and he changed his mind and yielded to O'Rourke, who does not "kick" unless he has a point to make.

The game will not bear description. Rusie

was well nigh invulnerable and Duryea was not. Consequently New York played a good Sciding game and Washington did not. The result was Other Saturday games .- At Cincinnati-Cincinnati, 3; St. Louis. 1; thirteen innings. At Cleveland—Cleveland, 6; Chicago, 5. At Brood-

In relation to the protest of Messrs. Daniel tween 20th and 21st. Riggs street & Armat against the plan providing for a genthe Commissioners and was represented by him at the time to be in accordance with the general plan of the city. The proposed lines did not in all cases run toward the cardinal points, but some slight deviation was allowed to make more perfect connections be-tween existing subdivisions. The plan agrees with the precedence established by the sub-divisions of South Brookland and University Heights. If a rigid prolongation of city streets had been adhered to around Brookland it would have effectually cut off outside communication with the subdivision. THE MT. ZION CEMETERY.

The trustees of the Mt. Zion Church, Georgetown, appeared before the Commissioners this any trouble with the lieutenant and he replied, morning to protest against the proposed action of the authorities to interfere with the cemetery on account of its unsanitary condition. It was represented in the petition submitted that the cemetery is kept as neat and clean as any ceme-tery in the city. The fight against the ceme-tery, they say, is due to the fact that the land is owned by the trustees of Dunbarton Avenue Church. It was once their burial ground. They allowed it to be turned out as a commons with no fence around it. The Metropolitan Railroad Company pastured their horses on it for years until the tomb stones were nearly all knocked down and destroyed. While things were in this condition the trustees of Mount Zion Church requested a lease of the property for ninety-nine years, and such a lease was duly made. If the emetery is closed what will become of their dead? Graceland is soon to be closed, Mount Pleasant is closed, Harmonia is not large enough. What are the colored people to do?
